

Like Governor Codey, I adamantly oppose any weakening of the DO NOT CALL LIST program in New Jersey as well as other states. Over the years, telemarketers have abused the priveledge of contacting citizens and I personally have received calls from some telemarketers that were downright nasty. There is NO reason to make changes that will allow telemarketers to contact the citizens of New Jersey if they are already on the DO NOT CALL list. Secondly, I can see it now, next they will be calling our cell phones and we as responsible citizens already have problems with the use of phones on the roads and in places where there are health risks to others as in hospitals. If they start calling cellphones, we are asking for more trouble than we can handle. There are many more reasons I'm certain, but these are what came to my mind in the few minutes I was able to spend here today. Thank you for allowing me to voice my opinion and I wish more citizens would take an active role in what goes on in New Jersey. I love this state, it has a lot to offer. Let's protect it as best we can so future generations can enjoy it like my family and I have.

Thank You
